**Hiring Manager**

CyLaCon

Kigali, Rwanda

**Subject:** Application for Software Development Internship

Dear Hiring Manager,

I am writing to express my interest in the Software Development Internship at CyLaCon. As an IT student with hands-on experience in web development, system design, and UI/UX, I am eager to contribute to your team while gaining real-world exposure to enterprise-grade applications.

I have a solid foundation in JavaScript, React.js, and Node.js, along with experience in MySQL and PostgreSQL databases. I have developed projects such as SafariTix, a transport ticketing system, and a Citizen Engagement platform, where I built interactive dashboards, integrated backend APIs, and ensured smooth user experiences. These experiences have strengthened my problem-solving skills, attention to detail, and ability to deliver functional and user-friendly solutions.

I am particularly drawn to CyLaCon's mission of delivering modern and secure digital solutions across East Africa. I am eager to collaborate with senior engineers, learn industry best practices, and apply my skills in React, Next.js, Node.js, and database management to real client projects. I am a fast learner, passionate about software development, and fully prepared to work remotely while meeting deadlines.

I am excited about the opportunity to grow under mentorship, contribute to meaningful projects, and potentially transition into a full-time role at CyLaCon. I look forward to the possibility of discussing how my skills and enthusiasm align with your team's goals.

Thank you for considering my application.

Sincerely,

**Micomyiza Alexis**
